

Enterprise Service Level Agreement

Service commitments

Service	Monthly uptime	Credit
Core API	99.95%	10% / 25% / 50% tiers
Dashboard	99.9%	10% / 25% tiers
Data ingestion	99.9% with 24h replay	10% tier

Support response

SEV1: 15-minute response, continuous effort (mirrors the internal incident severity ladder). SEV2: one business hour. SEV3: one business day. Escalation contacts are exchanged at onboarding.

Exclusions and process

Planned maintenance announced 72 hours ahead, customer-caused load in breach of the rate limiting policy, and force majeure are excluded. Credits are requested within 30 days and verified against the public status page and audit logs. Tenant isolation guarantees for the enterprise tier are described in the security addendum.
